

# 2015 U.S. National Report to the Nuclear Non-Proliferation Treaty Review Conference

## US Support for Peaceful Uses

### Nuclear Trade and Technical Assistance

- Since 2010, the United States has
  - Made over \$2.5 billion worth of nuclear equipment, materials and technology available to States involved in nuclear power programs.
  - Issued 595 licenses supporting exports of nuclear material, equipment, technology, and transfers of assistance benefitting at least 35 countries and the European Union.

### Bilateral Cooperation

- The United States has
  - Established 22 bilateral agreements that provide for cooperation with 49 partners fostering the development of over 70 GW of clean nuclear power.
  - Announced the availability a reserve of approximately 230 tons of LEU for nuclear fuel from the American Assured Fuel Supply (AAFS).
  - Contributed nearly \$50 million to support establishment of an IAEA LEU fuel bank.

### IAEA Technical Cooperation Program and Peaceful Uses Initiative

- Since 2010, the United States has
  - Provided over \$108 million to the IAEA Technical Cooperation Fund (TCF).
  - Provided over \$33 million of additional support for IAEA technical cooperation.
  - Pledged an additional \$2million towards the ReNuAL laboratory project.
  - Provided over \$50 million to the IAEA Peaceful Uses Initiative (PUI).
  - Announced that it will make an additional commitment of \$50 million over the next five years to the PUI.
